ACKNOWLEDGEMENT

This small booklet entitled "Banru Tarang kai langpatmei ruanri" is printed and published with the financial assistance of the Directorate of Tribal Development and Backward Classes Government of Manipur. I am grateful for the financial help extended to me. The book tries to present the rich cultural history of Rongmei naga which is declining due to interaction of the modern civilization. While collecting the past story and cultural heritage one could easily imagined that the past history was a combination with full of joy and sacrifices throughout the ages;

I am quite aware that my book does not represent the whole truth about the past cultural history, nevertheless it shall be a help to build up the missing link of the past oral story which never had a written form. I am grateful to a number of village elders who patienly narrated me the past oral story with their outmost memory. I shall remain ever welcome a suggestions and criticism on this book and the way I have collected and written and published.
